CUSTOMER SAFETY POLICY

- VOL is committed to provide world-class products and services to our customers with a concern for the health and safety of all our customers.
- Most of our products use internationally recognized safe ingredients and are subjected to the highest standards of safety and performance.
- Our manufacturing facilities adopt stringent safety standards, Good Manufacturing practices, and robust quality assurance systems, which are supported by Social & EHS management systems that are in turn aligned with International Standards like ISO 14001 and ISO 45001 and other third-party certifications.
- Concern of Safety is ensured in of all our activities and processes covering the entire life cycle of our products involving all our interested parties.
- We provide material safety data sheet with all consignments of our products with complete details of chemical and physical properties, Storage & Handling instructions, Potential Health & safety Hazards, Disposal instructions etc.
- We have detailed documented & tested product recall process to remove the product from the entire supply chain in adverse conditions.

G. Chandra Mouliswar Reddy
